

77 Sharon Sanatorium
NO. 20

TWENTY-EIGHTH
ANNUAL REPORT

OF THE

Sharon Sanatorium

SHARON, MASSACHUSETTS

DECEMBER

1918

SHARON SANATORIUM FROM THE SOUTHWEST

Twenty-eighth Annual Report
of the
Sharon Sanatorium
For Pulmonary Diseases
Sharon, Mass.

December, 1918

Incorporated March, 1891

Boston
Griffith-Stillings Press
1919

OBJECT OF THE SHARON SANATORIUM

TO supply a suitable institution for the treatment of *incipient* pulmonary disease arising in women and children who are unable, for pecuniary and other reasons, to seek distant health resorts. Only patients who are of limited means are received, and no far advanced cases are admitted. Price of board \$10 per week, exclusive of laundry.*

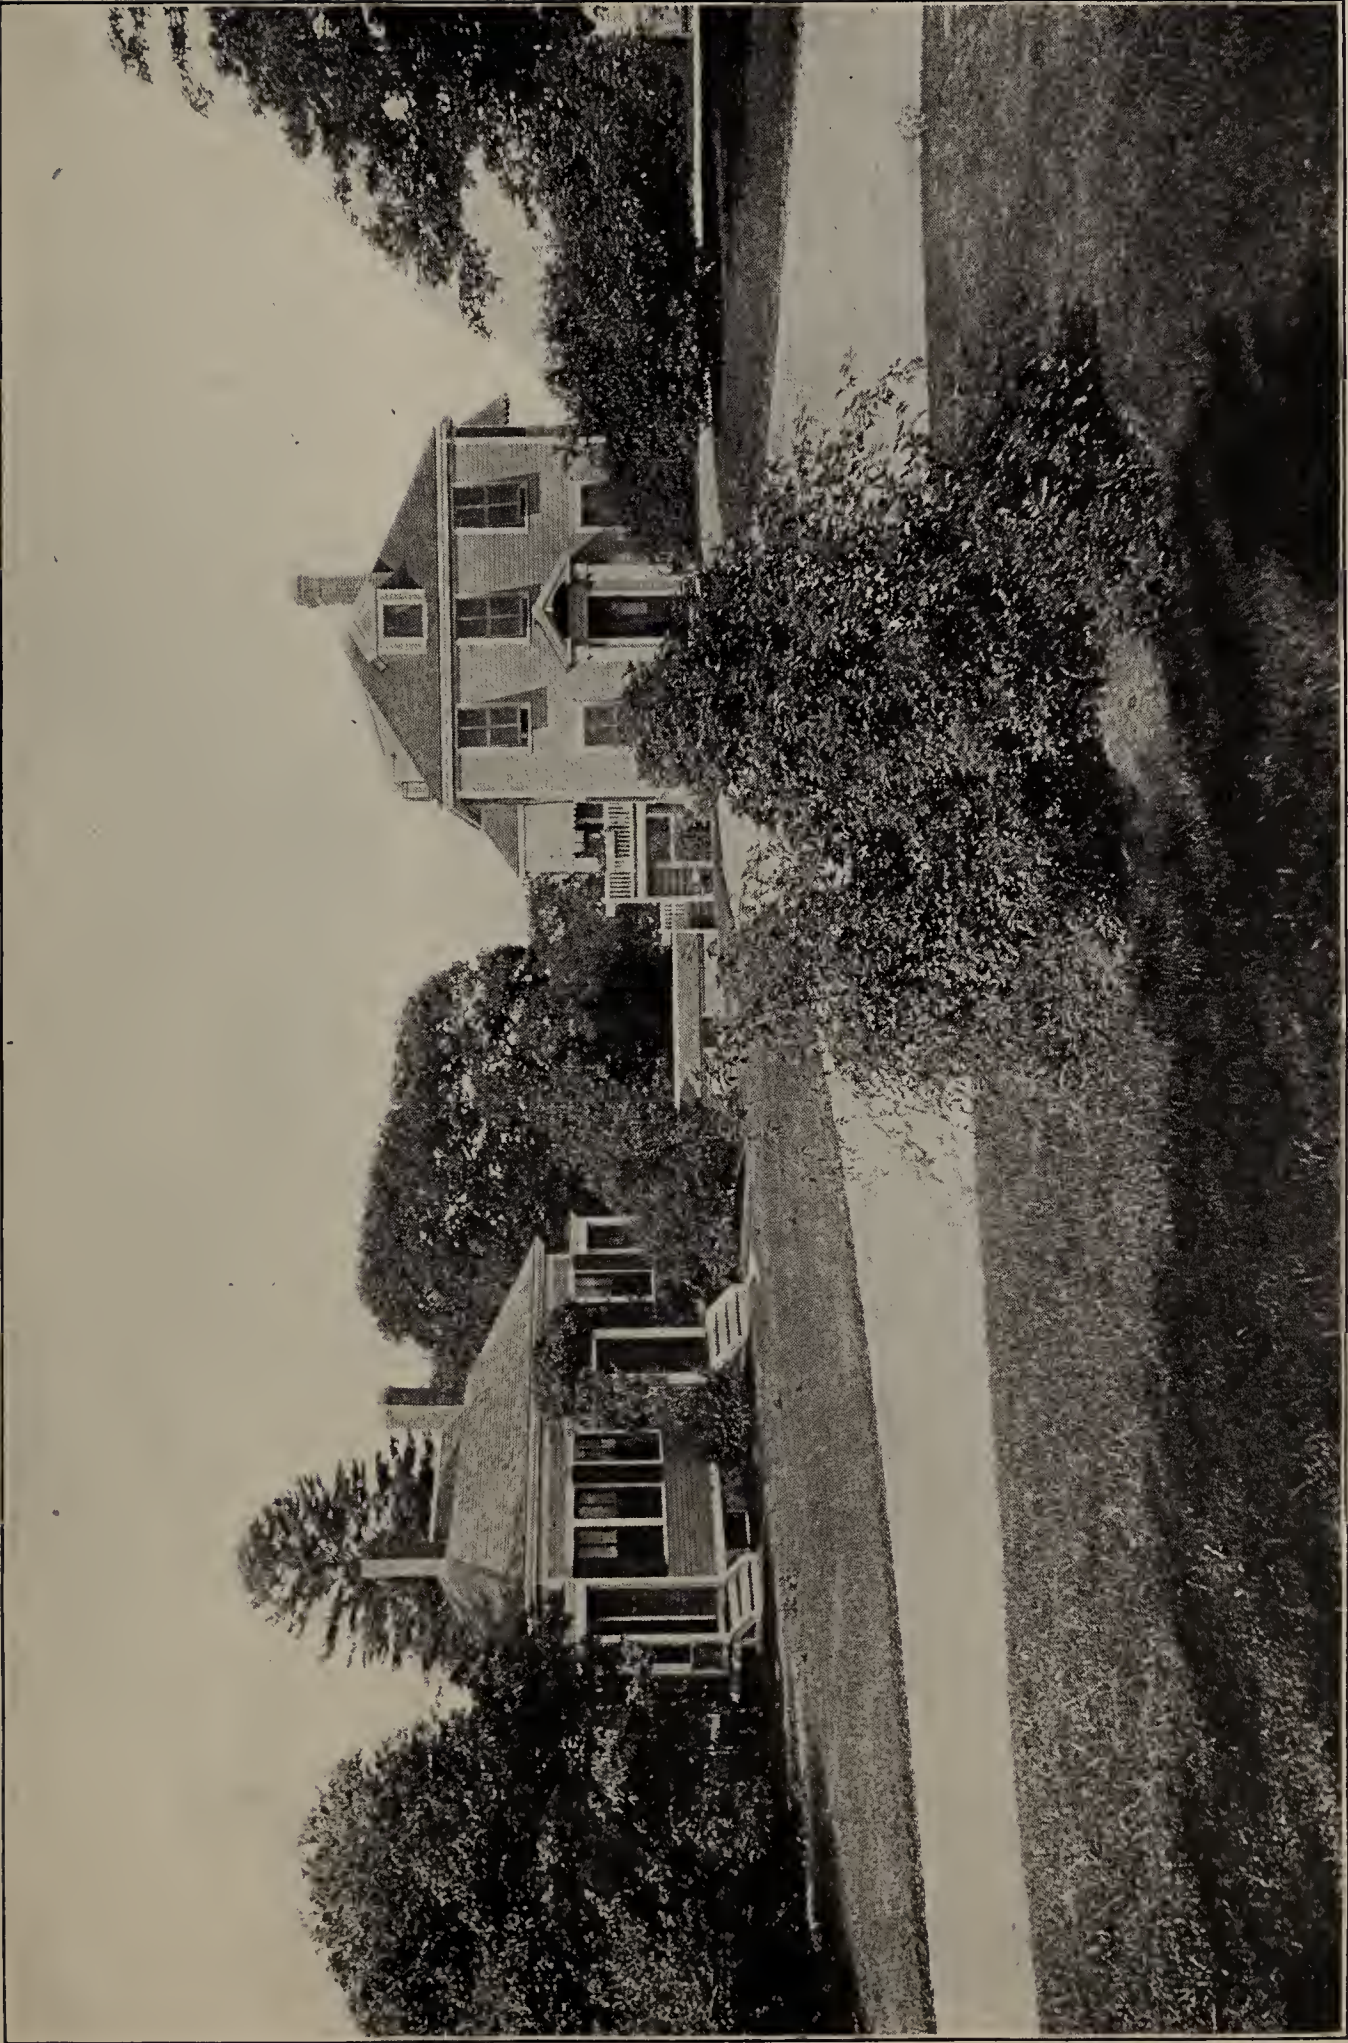

The services of the Medical Director and medicines are given free of charge.

Visiting hours { from April 1 to November 1, 3 to 5 P.M.
 { from November 1 to April 1, 1 to 3 P.M.

Visitors are kindly requested to adhere to these hours.

Applications must be made to the Superintendent, Dr. Walter A. Griffin, Sharon, Mass., or to the Medical Director, Dr. Vincent Y. Bowditch, 506 Beacon Street, Boston.

*\$15.00 a week after January 1, 1919, for Women's Department.

HERBERT JAQUES

Died December 21, 1916

The Auxiliary Committee of the Sharon Sanatorium wishes to record the great loss it has suffered through the death of Mr. Herbert Jaques.

He was the moving spirit and organizer of all our schemes for raising money for the Sanatorium. The first large bazaar ever held in Boston was planned by him and netted over \$15,000 for the Sanatorium. He had a tremendous capacity for work and a charm and graciousness of manner that made every one ready to work with him.

It was a privilege to have been associated with him, for his nobleness of character and sterling integrity were a shining example to all.

The manner of his death was so wonderful, to pass away swiftly just at the moment of triumphant success in a great undertaking. He died in harness, as much a martyr to the cause of the Allies as if he had fallen at the front.

ELIZABETH F. BOWDITCH

Died May 27, 1918

The Auxiliary Committee of the Sharon Sanatorium sustained a great loss in May through the death of its beloved president, Mrs. E. F. Bowditch. She was one of the oldest members of the committee, and had held office as president for many years. She kept the committee together year after year, through times of uninterest as well as through times of activity. She was always willing to do the quiet, steady work that gets no credit, but is so essential to the success of an undertaking. Her unselfishness and humility endeared her to us all, and we sadly miss her quiet strength and guiding hand.

Mrs. C. A. PORTER,
President of Auxiliary Committee

THE CHILDREN'S PAVILION

DIRECTORS' REPORT

DECEMBER, 1918

THE twenty-eighth Annual Report comes almost coincidentally with the cessation of the great war, and with it arises the hope that our charities at home will be relieved of the anxiety of the past two or three years because of lessened financial support due to the tremendous calls made upon philanthropic people to meet suffering and misery abroad. We are face to face with the fact that following the hardships of war will come an inevitable increase in the number of cases of tuberculosis brought to our attention, not only among the military but the civilian class, both male and female. With the latter the Sharon Sanatorium for twenty-eight years has been more directly concerned, and now with the opening of the Pavilion, tuberculous children of both sexes will come under the care of the Sanatorium, and the problem of adequate support must be met with unflinching faith that the necessary aid will be forthcoming in the future as it has been in the past.

The work of the past year has met with the usual gratifying success of recent years. The Directors have reason to feel special satisfaction in the completion of the beautiful new building for children, and although it is too early to give results of treatment, there is every prospect of being able to prove in the not distant future that the hopes of its founders have been fulfilled. Already there is an atmosphere of health and happiness among the children who have entered, which augurs

well for the future. That it will be an important factor in the good health of future generations by this early protection and instruction in the laws of hygiene, there can be no doubt. The subscriptions thus far given for the Children's Pavilion will enable the Directors to receive patients for the present, but the comparatively small charge for board will not be sufficient to meet indefinitely the excess of cost, and more money will be needed in the near future for this purpose.

As a special appeal to sympathy the Sanatorium has already received the wives of soldiers. That widows and orphans of some who have served the country will present themselves for care is a foregone conclusion, and we must have the means to help them. Special stress should be laid upon the fact that children will receive graded instruction during their stay, for the Pavilion is not merely a sanatorium, but a school for tuberculous and enfeebled children who, while gaining healthy bodies, will have the additional advantage of mental training.

The Directors have hoped that some one who wished to establish a beautiful and substantial memorial to a friend or relative would be glad to subscribe the original cost of the Children's Pavilion, which should then bear the name of the one whose memory was to be perpetuated, and this hope they still have.

The women's department, with an experience of twenty-eight years, has long ago fully proved its efficiency. It needs, however, more than ever, gifts of money to maintain its standard. The constant complaint about the increased cost of living is more urgent today than ever. To raise the price of board at the Sanatorium seems now inevitable, although it adds to the burden already laid upon those who cannot well bear the strain.

SUN BATH (WINTER)

BEDROOM WITH SLEEPING BALCONY

THE SUN PARLOR

THE DINING ROOM

The only alternative, therefore, is an increasingly generous support from those who are able to give.

Our Superintendent, Dr. Griffin, and the Matron, Mrs. Bishop, have striven—with excellent success—to meet the rising prices of food and other materials. Strict economy as far as is consistent with measures necessary for the welfare of the patients has been practised, and in consequence the increase in the annual expenditure over last year is comparatively slight — a fact which speaks much for those in charge.

A most gratifying professional tribute has been recently paid to the work of the Sanatorium. The Harvard Medical School having decided to add to the teaching staff of its Graduate School has asked our able and efficient Dr. Griffin to become a member of the staff in order to teach physicians the methods of treating tuberculosis in medium-sized, well-regulated sanatoria. The fact that this invitation came without solicitation makes it a special compliment to the work done at Sharon. This offer should have a doubly beneficial effect; for it not only calls attention to the Sanatorium and the nature of its work, but it distributes the knowledge of what can be done for the treatment of tuberculosis more widely throughout our country.

It is a pleasure to quote as an example of many, a part of a letter from a former patient:

“It is twenty years this month since I went to the Sanatorium, well nigh a wreck. I am sure few of your patients can boast of a better record than I, and I doubt if any are in better health and strength. Those years of weakness and misery seem like a dream now, and I cannot imagine what it must have been like to have time hang heavily on my hands.

I lead a very active, busy life, and I am sure I am able to endure fully as much as the average woman of my age. Those years at Sharon certainly put me on my feet, as nothing else could have done, and I probably should not be alive today to write to you if I had not been fortunate enough to have the excellent treatment given there. . . .”

The Roentgen Ray Department has been of great benefit, but money is needed to keep it in the highest state of efficiency. Gifts for this purpose are earnestly solicited.

In December, 1916, the Sanatorium met with an irreparable loss in the sudden death of a most sincere and efficient worker in the Auxiliary Committee, Mr. Herbert L. Jaques. For years he had devoted himself heart and soul to the cause, and had endeared himself to all who came in contact with him. No one can adequately express how much the work at Sharon owes to this loyal and faithful friend, whose death leaves a void which can never be filled.

In May, 1918, by the death of Mrs. E. F. Bowditch, of Framingham, the Sanatorium suffered another great loss. From the outset she had been indefatigable in her efforts on the Auxiliary Committee, of which she was President for several years. The constant inspiration which she gave to all of those with whom she was associated will be sorely missed.

The Endowment Fund has increased slowly, but needs prompt and substantial additions. It is suggested that bequests in the form of "Funds" bearing special names as memorials be made, to add to the Endowment Fund, which will be devoted to the aid of worthy women and children patients. Contributions to the X-ray fund are also especially required, both for diagnostic and therapeutic purposes.

The Directors again confidently put forth an appeal for aid for the following purposes:

Additions to the Endowment Fund in the form of memorial funds, or otherwise, which shall be used to help patients unable to meet the expense;

SLEEPING BALCONY

ROENTGEN-RAY BUILDING

THE CAMP

Subscriptions, large and small, for both women and children's departments, to overcome the annual deficit;

A larger list of annual subscribers;

Endowments and subscriptions to the X-ray Department, now of vital importance to the institution;

A sum of money (\$2,000) to establish a suitable refrigerating plant, which would be labor saving as well as a source of economy.

Special thanks are extended to the Grueby Faience & Tile Company, of South Boston, for a most acceptable gift of the colored tiles which now ornament the fireplaces in the new Children's Pavilion.

The Press of Boston and Sharon has been, as hitherto, most generous in giving notices of the Sanatorium, for all of which the Directors desire to express their gratitude, as they do also to the numerous friends who have given them aid from time to time throughout the year.

MEDICAL REPORT FOR 1917

Full capacity of Sanatorium	25
Number of patients admitted since December, 1916	48
Number of patients discharged during the year	54

OF those discharged during the year four stayed less than one month, two did not react to a full dose of tuberculin, and one had asthma. This leaves forty-seven to be considered in detail.

RESULTS DURING THE YEAR

Arrested	15	= 32%
Apparently arrested	13	= 28%
Quiescent	5	= 11%
Improved	10	= 21%
Unimproved	4	= 8%
	47	

The number of patients who had tubercle bacilli in sputa was .	23
The number of patients who had a positive tuberculin reaction was	19
The number of patients in whom the physical signs were deemed sufficient for diagnosis was (882, 902, 909, 917, 926) . . .	5
The number of patients who had hemoptysis before entrance or during stay was	15
Average stay of all cases	5.5 months
Longest stay of any case	17 months
Shortest stay of any case	1 month
Average gain in weight of all cases	12.2 pounds
Number of cases who lost weight	None
Average age of all cases	27.4 years
Number of hospital days	8,602
Number of hospital days that patients were confined to bed	1,058
Number of meals served in bed	4,064

SCHOOL ROOM, CHILDREN'S PAVILION

SLEEPING PORCH, CHILDREN'S PAVILION

MEDICAL REPORT FOR 1918

Full capacity of Sanatorium (including Children's Pavilion)	45
Number of patients admitted since December, 1917	60
Number of patients discharged during the year	55

OF those discharged during the year three stayed less than one month, one did not react to a full dose of tuberculin, and one was convalescent from pneumonia. This leaves fifty to be considered in detail. A tabular view follows, showing the cases classified according to the conservative suggestion of the National Tuberculosis Association and the American Sanatorium Association. It will be noted that the present term, "arrested," is the equivalent of the much less conservative term, "apparently cured," used until recently.

RESULTS DURING THE YEAR

Arrested	11	= 22%
Apparently arrested	17	= 34%
Quiescent	7	= 14%
Improved	12	= 24%
Unimproved	3	= 6%

OFFICE, CHILDREN'S PAVILION

WEST WING, CHILDREN'S PAVILION

TREASURER'S REPORT

April 24, 1919.

To THE DIRECTORS OF SHARON SANATORIUM,
Boston, Massachusetts.

Dear Sirs: We have examined the records of the Treasurer and of the Superintendent of Sharon Sanatorium for the two years ended November 30, 1918, and find them to be correct.

The cash disbursements are duly supported by vouchers in the files and the cash in bank and on hand was found to be in agreement with the books and the Treasurer's report, a copy of which is attached hereto as Exhibit A.

We made no examination of the securities, as we understand that this is to be done by your own Finance Committee.

Very truly yours,

COOLEY & MARVIN Co.

BOSTON, April 28, 1919.

TO THE DIRECTORS OF THE SHARON SANATORIUM:

Gentlemen: We beg to hand you herewith the Treasurer's Report for the two fiscal years ending 1 December, 1918, with attached thereto the Certificate of Audit of Cooley & Marvin Co., whom we employed to audit both of the accounts of the Treasurer and of the Superintendent of the Sanatorium at Sharon.

We have ourselves examined and verified all the securities called for in the accounts of the Treasurer and found the same on hand.

Very truly yours,

EDMUND F. MERRIAM,
INGERSOLL BOWDITCH,
Auditing Committee.
